Issue No. 3

---

Dear members,

let me take the chance and welcome you to already the third issue of this small magazine. To some of you the early release-date of this issue might be a bit surprising, as I scheduled it for the time after the summer, like August or September. But all of a sudden, I got a damn cold and had the time to be active for Avantgarde again, as I didn't have to go to work during this time. So here it is. Must be one of the very first magazines which is released BEFORE its own schedule.

Thanks to those of you, who sent back the interview-sheet and the ones who gave us some other support. But still, we are not satisfied with your support and feedback. It should not take that much time to fill in this little sheet or write us some lines with the latest happenings from your side, or?! So I certainly do hope that I get the rest of the interview-sheets back after this issue, it will be included again on one of the last pages. Move your ass!

In this issue we have some "gimmicks" for you again. This time you get some new stickers once more, which were done by Deff. But that's not all, additionally, you get a new AVT disc-cover, which was painted by an Excess dude, as far as I know. Enjoy and use the stuff. The next issue might even include some more and new surprises, so stay tuned. I don't know how many pictures Mario was able to collect this time, but I am pretty sure that we will have some photo pages again in here. Check 'em out.

Oh, I just had to notice that the bottom of the page is getting closer and closer, so I should rather do another page for the news and similar. That means more work while copying, but hey, am I the copy-slave?! Hehe.. Just kidding, Mario!  
Enjoy this issue and we are looking forward to receiving your feedback!

Yours sincerely,

Tobias (Jack Daniels)

## NEWS and MORE...

- Dream Park got a toll-free number, the Americans can reach our HQ at 1-800-338-6615. But don't spread the number too much.

(ED: The 1-800 is down by now!)

- Chameleon, an American BBS-graphician joined our fleet. He used to be in e.g. Dominators and was running the board "Divine Ultimatum" for groups like Legend & Nei, F4CG and Dominators.

-Rage left Hardcore and joined Avantgarde. He is a very talented coder and might do some cracks as well for us.

- Renegade/Excess teamed up with Avantgarde. He has got a modem and joined as a cracker/coder. He's living very close to Jack Alien and Suicide and is one of their best friends.

-Now we even got two NTSC-computers in our European Section. Jack Alien is now also a proud owner of an NTSC-64.

-Well, honestly, that's it about the news. Now some "Did you know's" are coming up, in order to entertain you (and fill the page).

-Did you know that Weasel built up his own PC-Service lately? He is specialised on people who bought their PC's somewhere and now have problems with the Soft-/Hardware which they can't solve.

But also Jack Daniels has his own business now, he built up an own, small travel-agency together with his brother. It still operates from his brother's apartment, but own office(s) in the city-centre are planned for the near future. It is called "GO! Travel Services".

- Did you know that we had a toll-free Avantgarde VMB for the German members? Callers were Deff, Jack Daniels, Jack Alien, Suicide, Weasel, Rage and Intruder. Too bad it was closed down after some weeks.
