BELGIANNEWS

by Shadow/TCOM

Take care... Until now italians invaded our lan and, of course, it was a real disaster. Nowadays, Italians are particulary real milksops (Yes... It's true !!!) and they think they are the bests, the strongest... but they are only big noses and bad sucked boys...

What do ya need to be a real italian ?

First, you must be very tall. Secondly, you must have a really big mouth. And the third thing, you need is that you have to eat spaghettis 3 times a day.

I think Jumpie of F4CG has already 2 things in common with those stupid guys. I'm sure you know wich !!!

No... all this shit text was only a bad joke which give me time to introduce the Belgian hackers activities report.

And, of course, the most important thing to know is taht NFC is from 100 % dead (This isn't another stupid joke of mines), and now, what are the Ex-NFC'ers doing ???

Jumpie, Solar, the Wim and Abigall joined the Italian group called F4CG (Federation 4 Castrated Gays !!!).

A guy had a funny reaction and told me : "Oh NO, yet 4 Italians in Belgium" - What's my opinion about it ? I think Jumpie and his friends choose the real way to power...

Well, Equalizer has become a Triad member (The first in Belgium), Wave and Fluoman enter the exact team (so did some other guys from other groups like LAZER...). I'am really glad about it because they are really coooooool.

The others members (from Germany, England) also stop their activitys in the name of NFC.

Zadex, the coolest NFC'er, decided to join PARAMOUNT (great no ?), MET (the English member ex-NFC, ex-Pyrotech and now ex-NFC) joined excess - a typical english group - and all the others (the ex Weird-Science members and some others) joined also german groups but I can't remember the names (what a fucky mind I have).

Weel... this time, I know it's for real... I never say goodbye, so I say you : "V... V... V... VDB... Tu ne vas pas crever...". See you somewhere...

A BEASTIE IS DEAD !

Allright, I quit computer... There's no special reason for it, I just had enough of all the computer stuff. I was doing now over one year real good and was the only real elite Pirate in Switzerland. I hope others will come up in my country after me.

Okey, I say good-bye to all my friends and contacts, I had loads of fun with you...

The AMERICAN SCENE

by the Uision (JAY)

I don't know, if you know me (greet, contacts !), but I live in San Diego (California). Since LKJ/TCOM sent me a couple issues of ★CCCP★ (damn communists !) and asked me to write some articles, I figured, I might as well. First of all, I hope to tell you Europeans about the pirating scene in US (or anything else you huys want to know about the USA), and I might be able to show you how English is properly used. I do trade Amiga & 64 programs, so contact me at JAYIPO BOX 177005 / SAN DIEGO, CA 92117 / USA.

You might also send questions so I could make this a regular column in ★CCCP★.

Down to business. Trading on the American scene is really competitive. When I first go into my 64, I wanted to get on the scene (the modem & BBS scene), so what I could get more games.

After a while, I like most people, end up just collecting games. It becomes strictly a matter of prestige - Who is elite or lame. Instead of playing games, people end up trading games mainly for tradings sake. People compete to get the newest games (0-1 days old), and don't really give a fuck about quality.

Personnaly, I run a BBS and trade games, but I delete all my 64 as they get old, and leave room on the BBS for people to upload more. I do this because, I have an Amiga fo quality programs and only run a BBS to keep in touch with the pirating scene.

So, what's the European trading scene like ? I know you guys have a bunch of parties (USA has aan enforced drinking age of 21 ! Shit !), but what else goes on ? And whats your ranking for Usa groups ? Write2me!

NOTE ABOUT CHART :

Every time a magazine makes a chart, we wonder if it is really objectif chart. In CCCP'charts the same problem happened, so we had to find a solution that looked to be fair. We in TCOM, think to find the answer...

After a little chat with Jumpie from F4CG, we asked him to make the twenty best groups crack charts.

Replying our request, Jumpie made it. So, we can freely publish this chart, even Transcom is #6 ranked.

MALIBU - UNKNOWN / TRANSCOM

A quick note to the guys who ranks their scrolls :

You know... for the moment, something strange appears in the top ten of crackers.

You see groups like DCS, ELITE, and some others. But they don't crack anything during the all month you got news from everywhere but no from DCS or... You know, I'm just like you. I also think they are real legends and I also know what we are for them... But, be a little bit intelligent and vote for the groups who really cracks from some really good group but you never vote for them... Why ??? Give a chance to everybody... Many groups should be in this top ten.

Then, when you'll make your next top ten, look at all the cracks you got during the month and ask to your contacts what they also think of this... / ANGEL EDDY

Fact of today...

Jumpie/F4CG

Have you seen all those guys who write everywhere "Name of their group #1"...

It's just "LAME"... check the example in Germany as far as I remember, ELITE, PARAMOUNT, GENESIS, VIRGIN, DRIVE... all claim to be number 1.

Don't forget guys, there can be only one #1 and actually there isn't a real one like TRIAD and IKARI in the past and BLASTERS and F4CG in their country as they're the only group in their own country...

So Stop laming, at once, that's kid's stuff, ok ?

SEE YA IN UK.

YO all, here is ACID of X-MEN UK...

I'm back hopefully no spelling errors this time as I'm typing this in (with xted-ed)...

England has many games being released on the Amiga, but the 64 I got, no idea what's new as I left it many years ago... England now, is mostly Amiga... I think even Zenith are dead as hasent called me for ages...

Well, the Amiga has many a kicken crew in the UK such as... XMEN UK, ECLIPSE, FREESTYLE UK, QUARTEX, ORACLE, THREAT, SCOOP-EX...

At the next show in England, there will be another kool (well your believe anything) copenparty by share n enjoy...

I'll be at the Commodore Show friday and Saturday come and visit me your all welcome as long as I know your coming at, at the mo I think the Transcom boyz are coming (as usual) plus Quartex n Oracle...

Sorry guyz, but the most drunken award is wrong we may not have been at the party but 100 % sure XMEN world wide are the greatest drinkers every, firstly, my brother drinks like a fish, the finish members dont know any

other drink and I prefeere drugs (Ok, also a few brews n bottles !!!)...

Lets kick sum respect to these guyz : all the staff at ★CCCP★, yo Malibu, LKJ, Greystoke... Still got those T-Shirts, anyway see ya at the next show and we shall go parting... The Brossetes (Gene and his 14 year old boyfriend !!!), Martin of COSMOS, DOUBLE DENSITY CREW, QUARTEX, ORACLE, THE BAND, DBS, SILENTS, DEFJAM, NORTHSTAR, FAIRLIGHT, PIRANHAS and lastly u... Kickin 4ever the one and only... ACID (respect the boyeeeee).

- NICE GUYS.

(711, Hobbit/FLT, Jr Predator/TBI, Transcom, F4CG)

- Great laughs, cool atmospheres eventhough

we were only 2 few...

- Big flopp on the view of the abundance...

probably a bad chosen period as a lot of guys were in exams (Netherlands, West-Germany...) anyway.

I've to send a deep fuck to all those guys who promised to come and weren't they...

A Trip to Aachen... by Jumpie/F4CG

Well, a few weeks ago, talking to my friend Timelord (TNT) of GP+FE, I promised him to visit Aachen someday... weeks passed and at once, I had a week-end "free" !!! After some phonecalls (I love phonecalls, I hate phonebills!), evrything was fixed... I took the train on saturday at 12 O'clock, I was a bit worried because I knew that those green pigs (alias German-cops) are so strenght and in my bag, everything was illegal !!! Anyway, their control was goddamned lame !!! I could have with me kilos of drugs, they wouldn't have known it... lame green pigs !!!

Arriving at central Aachen's station, I brought my ass out of the train and directly called SCRAP/CONTEX, as Timelord told me he'll be there 20 minutes later, I saw a bunch of weidos walking in my direction... "Are you Jumpie?", "euh... yes!", "Hey! I'm Roger of Fire Eagle!", "And I'm el Bimbo de Scrappy of Context! Yeah!". So, after travelling through Aachen in the big Mercedes of Scrap father's... We arrived at the Context HQ !!! Scrap was a bit pissed off as he had to change the NFC logo as I joined F4CG two days before coming (you may have seen the co-demo between CONTEX, FE+GP and F4CG !?) !!! It was nice talking of all those german lamers !!! As I didn't know what to do, I interviewed ROGER and TIMELORD of FE+GP.

So here it is :

JUMPIE : Why the coop splitted up a few weeks ago ?

TIMELORD : Well, we splitted up because we didn't know how to combine our forces and we were in a real bad mood !!!

ROGER : Yes, I was in school exams and Olly (alias TNT) missed his driving licence. that's all !!!

T. : No, in fact they released too much crap !

R. : Hey! Pisser! and you released nearly nothing (big

laugh of everyone) !

R. & T. : Just kidding ! Now all the problems are solved and we'll rule together !!!

J. : What's your position, you think, in West-Germany, Timelord ?

T. : Well, we think really high. And we're still trying to improve our position in this rough world. Actually, I think we're some of the biggest in Germany right now eventhough there's an hard competition among Germany's groups.

J. : And you, Roger, what's up in the Netherlands ?

R. : I really think we're doing a right good job and we're one of the best now in this little country. We hope we can still prove in the future.

J. : (to TNT) What do you think of ELITE and PARAMOUNT which are your most competitors ?

T. : I should better no tell you, but I just hate ELITE's arrogant words, especially Jeff Smart who's what I call a complete shihead (I'm certainly not the only one who think so in Germany) !. Anyway, PARAMOUNT is quite "Ok", I think.

J. : And you Roger, HOTLINE, UNIBIT and others...

R. : Yes, HOTLINE, an oldie ! And still around the scene but they are going down a little bit... It's not anymore the good old group from the past, anyway they're still cool !

J. : Timelord is one of the most arrogant guy I know, on the other hand, Fire Eagle, seem to be really serious guys, what now ?

R. : Yeah ! I think it's true (hehehe), but don't think we're always serious !!!

T. : What ? Me ? Arrogant ? neeeever, I just know that I'm the beeeest in the weeeest, and I really enjoy it ! Actually, I'm not only the best but also the most beautiful, most powerfull, most potent, most whatever you want in the whole world (honest !) !!!

J. : What do you think of the scene on 64 and on Amiga ?

T. : I hate what happens on 64. I preferred the good old times when people didn't care about greetings and that public relation stuff. Those days, 64 was a hobby to en-

joy and to have fun with. Nowadays, people seem to think it's cool to release a lot of shi like those music rips an all that stuff. Everyone is releasing the same cracks as they all buy the same originals. Where's the fun ? People only want to get famous as fast as possible. They make fast and lame cracks. So, we try to keep the old standard. Maybe cracks are not the fastest, but theysure are some of the best !!! We try to keep the line up from TRIAD, SCG, and now GP+FE. Ok, that's what I think !

R. : I don't like the scene anymore. I only swap and crack, I don't even play the games. Why am I doing this ? Not for Fun but to be fast and that's what I don't like it anymore. I want to get some changes in the scene. For example, many people are anti-communist ! Why ? They don't really mean ! Just talk about serious things in scroller for all people ! You will love it. But first, I have to type it to the end. I don't know anything about the Amiga scene.

J. : How many members in FE+GP, Who ? Where ? What are their role ?

T. : There are about 10 people in every group. They live in germany, Netherlands and Denmark. The danish guys are only coders. The rest is mixed up into Modem traders (Eric...), Mailtraders (Antichrist, Roger, Eric, Snacky...), Coders (Sædesoft, Olle, Hires, Frankieghost...), drawers (Olle, Hires...), musicians (Sædesoft & the Danish guys...), crackers (Roger, Snacky...)...

J. : Talking about cracks, your releases are really fast, who's supplying you ???

R. : Quite good question but you won't know it !!! It's secret and it'll stay !!!

J. : Thanx for answering guys !!!

R. & T. : The pleasure was for us JUMPIE !

At last, I'll greet sum pals in... TRANSCOM (sometimes cool, sometimes real pissheads !), FE+GP, DOMINATORS, FAIRLIGHT, HOTLINE, PULSAR, ROUGHTRADE, ACTION, ZENOBITS+WOT, BLASTERS, UNIBIT... Ok, catch ya all at all those summer-parties !!!

NEW MUSIC SOUNDS by SATORI

Well, let's speak about some **good night clubs you can go in Belgium**. But, only if you want to listen and dance Acid, New-Beat and Techno sounds. Here, I give you 3 of the best nights club. If you want me to publish your best night club, write to ★CCCP★ and add "to SATORI", so let's go !!!

SKYLINE :

Here is the best one for the music, and for the dance too. Most of the fashion of dancing and dressing come from here. They released their first record : Spiritual Sky "Sky my House Band (Ecoutez et Répétez)" and soon they'll release another one. They made some clothes and publish a free magazine speaking of Fashion... Every Friday night, you can dance on Disco music... 

BOCCACIO :

Very good music in this very popular place (who doesn't this biggest european night club?) but only if you go on Sunday night (best Acid, New-Beat music). But, there is too many people... too many people (sometimes more than 4 000 per night !). They released 2 records : "Even Now" and "New Beat Megamix".

FIFTY-FIVE :

Good Acid-music but sometimes a little bit too "underground". People are a little bit strange. And there is lot of gay people on Sunday night. They didn't release records yet, but it's a quiet good night club !

After this, here comes some good tracks to listen : Kaotic Mix, Acid Rock, VDBeat, Bingo Bongo, Amnesia "Hysteria", The Maxx "Techno Time", New Beat Mix 2, Psycho "Cid da da da cid", This is Acid, Contest. And many others...

And, I have to give a special mention to the following movies : Samantha - very hard porn movie (made in West-Germany by ???) and Miss Todd (yet another porn movie, but WHAT A BEAUTIFUL ONE...).

Now, enough talking about sex movies. This month, "Hellraiser" take the first place and it is really right, cause this movie is really scary. I have only one thing to say, watch it as quickly as you can and wait for the second movie called "Hellbound" (Hellraiser II, hooouuaaaa, the cenobites are back bringing you more tortures, hip hip hip, hourra !).

Do you remember Eddy Murphy ??? Well, he's back but this time he is on stage telling you his best jokes. At the beginning of the movie, you begin to laugh so hard that you begin to urinate in your pant... and it is very hard to watch all the show in one time... Eddy Murphy is very great ! And for the lamers, they'll learn many other words than "fucky..." (This movie is not easy to get. But, of course, I have it (Good qualities inc.)...

Well, I won't talk more about movie until now. Then I want to thanks two friends for their tapes, they are COSMO/DOMINATORS, SOLAR/F4CG.

Well, if you want to send me your tapes and list to me (it is really easier to me to make this article then). Of course, all the videos'll be returned, cause I know it is very expensive... Well, I have to fuck. BYE... Shadow/TCOM
