

CPT 8000 SERIES

CPT 8000 SERIES

The CPT 8000 Series disktype system offers the ultimate in word processing technology . . . featuring a host of advanced capabilities to meet your most demanding needs. With its ease of operation and minimal training time, your typist will achieve maximum productivity on the 8000.

Unprecedented Display Screen

The CPT 8000 features a full-page display monitor, specially designed for unparalleled clarity and resolution. As typed material moves up on the display, the black characters on white background look like an actual piece of paper moving through a conventional typewriter . . . making it easy to read and eliminating operator eye strain and fatigue.

The 8000 also provides a convenient upper and lower screen feature. The margin scale divides the screen into two independent sections, where the 6-line lower section can be used to preview, sort and prepare information for the upper screen.

Typing Line Entry and Margin Scale

Typed information first appears on the typing line of the screen, located above the margin scale. All correcting and editing is also done on the typing line. As a result, the typist doesn't need to scan the screen for the pointer to make corrections. In addition, all margins, tabs and line-spacing (single, double or triple) appear on the margin scale below the typing line, and are automatically recorded on the diskette. This provides quick, easy reference and eliminates the need for resetting or logging margins, tabs and line spacing.

FEATURES

- Dual diskettes
- Full-page display, black characters on white page
- Recorded margins and tabs
- Independent upper and lower screens
- Character, word, line, paragraph and page control
- Computer hyphenation
- Simultaneous input/output
- Automatic centering
- Filing system for 1000 alphanumeric page labels
- Disk table of contents
- Automatic underscore
- Tab indentation
- Text merging
- 4200 Series compatibility
- 6000 Series compatibility
- Block and column move
- Paragraph assembly
- Keyboard program
- Automatic repagination with headers and trailers
- Global search and replace
- Disk duplication and eraser
- Selection from lists and records
- 10 key pad with decimal alignment
- Superscripts and subscripts
- 240 positions per line with horizontal scroll
- Proportional spacing
- Justification
- Alphanumeric sort

Multiple Printers

Two printers may be attached at one time, enabling the typist to produce final or draft copy of unrelated documents while simultaneously drafting or revising on the screen. Up to four consoles may be attached to one printer.

Computerized Features

The CPT 8000 comes with a complete set of automatic functions. Computer hyphenation gives the 8000 the ability to automatically hyphenate words at each line end, in proper grammar. The ten key pad automatically aligns columns of decimals, for utmost typing efficiency. Centering, repagination and paragraph assembly, as well as many other functions, are also accomplished at the quick touch of a button.

Furthermore, the CPT 8000 offers its own unique software design, which is contained on a single diskette and inserted into one of two stations at the start of a day. In seconds, the 8000 is ready to perform, and the program diskette is removed, leaving both stations totally free for recording or printing.

Filing System

CPT's unique recording technique allows the efficient storage of long pages as well as smaller amounts of information such as paragraphs or names and addresses. For example, up to 1000 names and addresses can be recorded on a disk and automatically recalled in alphanumeric sequence even though they've been entered in a random order.

SPECIFICATIONS

Display

Characters per line	80 characters
Lines per page	54 lines
Size	8.0 inches (20.32 cm) wide x 10.5 inches (25.4 cm) high

Disk

Capacity	315,392 characters (each disk)
----------	--------------------------------

Console

Height	19.75 inches (50.2 cm)
Width	24.5 inches (62.2 cm)
Depth (with keyboard)	26.0 inches (65.4 cm)
Depth (without keyboard)	18.75 inches (47.6 cm)
Weight (incl. keyboard)	122 pounds (54.9 kg)

Electrical

Voltage (grounded receptacle)	102-127 VAC or 198-242 VAC 50/60 Hz \pm 1%
Current (typical)	
Standby	485 VA
Operating (with printer)	620 VA

Environmental

Temperature (shipping)	-40° to 144°F (-40° to 62°C)
Temperature (operating)	40° to 95°F (4° to 35°C)
Humidity (shipping)	1% to 95% relative humidity (non-condensing)
Humidity (operating)	20% to 80% relative humidity (non-condensing) If less than 40% an anti-static mat may be required.
