*Native/Compressed. M2 assumes a 2.5:1 compression ratio. All other drives assume a 2:1 compression ratio. Compression, capacity and throughput will vary dependent upon type of data and system configuration. All specifications are subject to change without notice. **Except for the X Cleaner, X Tape is not compatible with the VXA-1 drive and VXA-2 drives must be at firmware Rev level 2105 or higher in order to be able to use X10 and X6 media. † LTO Exapak contains 7 LTO data cartridges and 1 cartridge magazine with storage case. ©2007 Tandberg Data Corporation. SmartClean is a trademark and Tandberg Data, VXA, and M2 are registered trademarks of Tandberg Data Corporation.
