

...an interactive DDP IBM software-comp for less than

system coupled to an atile batch processor \$5000 a month.

It's not just another idea. It's reality. From Four-Phase.

Now you can distribute the full spectrum of IBM and IBM-compatible 360/370 software, along with portions of your data base, to remote DDP sites. Our Systems 311 and 312 Distributed Batch Processors offload your mainframe and put batch application power right where you need it, when you need it—for as little as half the cost of IBM's comparable 4331 group 1 and 2 systems.

Multifunction realities.

Two new interactive systems.

New Systems IV/80 and IV/95 are powerful additions to our proven line of interactive systems, putting multifunction DDP to work with higher memory and terminal capacities than ever before. These high performance systems combine unique Four-Phase software and hardware to produce the most powerful, versatile DDP systems in history.

Interactive and batch: unmatched synergy.

Combining interactive and batch processing into one system yields the

best of both worlds: the responsiveness and flexibility of CRT-oriented interactive processing plus the high performance of batch processing, all in one cost-effective DDP system. A Four-Phase interactive/batch system, including a System IV/80 multifunction processor, 10 terminals, and a System 311 Distributed Batch Processor, can be leased for less than \$5000 a month.

New CRT ideas: human engineering reality.

Our attractive new display terminal, with its comfortable and efficient keyboard, palm rests, tilting screen, adjustable anti-glare filter, and green or optional amber character display, is the result of years of research into operator ergonomics.

Advanced service realities: nationwide field support.

More than 1000 service personnel in over 130 locations across the continent provide individualized hardware and software support and a level of expertise unique in the DDP industry.
