Memorandum 6L-345

Page 1 of 3

Division 6 - Lincoln Laboratory
Massachusetts Institute of Technology
Lexington 73, Massachusetts

Subject: Group Leaders' Meeting - 19 May 1958

To: Group Leaders and Associate Group Leaders

From: C. W. Farr

Date: 4 June 1958

Present: R. R. Everett, J. F. Jacobs, D. R. Brown, W. J. Canty, C. L. Corderman, N. L. Daggett, A. M. Falcione, R. S. Fallows, C. W. Farr, D. R. Israel, K. E. McVicar, J. A. O'Brien, W. N. Papian, J. C. Proctor, E. S. Rich, P. Youtz, and C. A. Zrakat.

Agenda: 1. Union Negotiations
2. Radar Presentation
3. SENEWS
4. ID Problem
5. System Tests Specs
6. Recruiting

1. This document has been prepared for internal use only. It has not been reviewed by Office of Security Review, Department of Defense, and therefore, is not intended for public release. Further dissemination or reproduction in whole or in part of the material within this document shall not be made without the express written approval of Lincoln Laboratory (Publications Office).

2. The research reported in this document was supported jointly by the Department of the Army, the Department of the Navy, and the Department of the Air Force under Air Force Contract No. AF 19 (122)-458.

ACTION

1. Union Negotiations

Papian is on the union negotiation committee, and outlined the nature of union demands and the status of negotiations.

2. Radar Presentation

Farr read memorandum from Freedman announcing General Electric presentation on future radar design scheduled for 1:30 P.M. 27 May in A-166; he requested to be advised of names of Division VI personnel who wish to attend the meeting.

3. SENEWS

Farr announced that Volume I, Number 1 of SENEWS, the newsletter of the JCC Science Education Subcommittee was released 16 May for publication in the July issue of PGEC TRANSACTIONS, ACM COMMUNICATIONS, and ELECTRICAL ENGINEERING. Preprints will be distributed to interested staff members at Lincoln. Farr requested criticism and assistance in preparing the next newsletter for September publication.

4. ID Problem

Israel proposed procurement (purchase or rental) of a Remington-Rand teletype-writer machine for use on the CHARM project. Discussion centered on the possibility of reducing MI Room delay time by use of the Remington-Rand or other equipment.

5. System Tests Specs

Everett discussed question raised by Currie of BTL concerning Lincoln approval of system test specifications -- Rader has been handling -- although the test spec document is several years old now and ESS experience in the meantime might suggest improvements, BTL needs action from Lincoln to avoid delays at McGuire.

Everett plans to discuss with Currie in New York 20 May.

ACTION

6. Recruiting

Everett reviewed recent experience in staff positions offers and acceptances. A number of spaces remain to be filled. Proctor reported the study of offers and acceptances indicated no significant trend.

Everett indicated a need to "keep the pressure on" in the staff recruiting program
