

Compaq StorageWorks™

Compaq Ultra2 Universal Hard Drives

First in industry to offer universal compatibility across all Compaq Ultra2 pluggable systems, offering unequaled levels of investment protection.

Drive height converter easily snaps onto the top of 1" high drives, providing disk compatibility across Ultra2 ProLiant, Alpha, and StorageWorks 4200 enclosure.

IDEA* award-winning hot pluggable hard drive tray.
*Industrial Design Excellence Award

Ribbed design for increased cooling capacity allows customers to easily upgrade to new, hotter hard drives.

Universal label highlights unique capabilities of the drive.

Soft rubber tray pads minimize rotational vibration

Ergonomically designed ejector button and handle allow for single-handed removal and carrying.

Easily recognizable tray label made of "write-on" material allows for personally labeling drives.

Fiber optic display for easy visibility of drive status
