

Compaq Power Systems Solutions

Pro UPS 500

Versatile new UPS offers productivity and reliable system safety

Increased system reliability and availability. Reduced risk of system downtime. Easy setup and operation. These are just a few reasons why the feature rich Compaq Pro UPS 500 is a cost-effective solution for users with no time to waste on data loss or equipment damage.

This uninterruptible power system (UPS) focuses on power requirements of consumers, small businesses, desktop and workstation users. During a brief power outage, the Pro UPS 500 helps users stay connected. In an extended power outage, it automatically saves files and performs an orderly system shutdown. Either way, data and equipment are protected. And if the outage did damage hardware, Compaq offers a \$25,000 computer load-protection guarantee! Also, reliable battery backup allows continuous, safe work on the Internet, in case of a blackout, for up to 30 minutes.

The first UPS offering from Compaq specifically designed for consumers through enterprise users of Desktop and workstation applications, the Pro UPS 500 complements the *Compaq Presario™*, *Compaq Prosignia™* NeoServer, *Compaq Deskpro™* EN and EP Series and *Compaq Professional Workstations*. Users can count on legendary Compaq reliability to safeguard computer equipment, ultimately reducing total cost of ownership.

COMPAQ

NEW Compaq Pro UPS 500

→ Key Features

- Keeps the computer running indefinitely through brownouts because of automatic voltage regulation
- Power outage protection for equipment with power requirements of 300 Watts or less
- Surge protects AC outlets and RJ-11 model/fax jacks
- Bundled with user-friendly Web-based smart software
- Multi-vendor UPS management, application shutdown and Enterprise Network Management System

→ The Compaq Advantage

- Best-in-class service and support
- Specially tested to work seamlessly with compatible Compaq hardware
- All Compaq products meet rigorous Compaq performance, testing and qualification standards
- Pre-Failure Warranty²
- \$25,000 load-protection guarantee¹
