Compaq Cable Management Bracket Rack Option Kit

First Edition (February 2000)
Part Number 164112-001

Compaq Computer Corporation

164112-001

About This Device

The Compaq Cable Management Bracket Rack Option Kit is designed for use with all 9000 Series racks to assist with cable management.

Kit Contents

- Cable management brackets (10)
- Cable management clips (10)
- 5.5 mm thread-forming screws (10)

This kit may contain extra pieces of hardware for your convenience.

Additional Hardware

You will also need the following components from your original rack hardware kit:

- M6 screws
- M6 cage nuts
- Cage nut insertion tool

Additional Equipment

You will also need a Phillips screwdriver.

Rack Considerations

Before beginning these procedures, make sure you understand and follow these precautions:

WARNING: To reduce the risk of personal injury or damage to the equipment, be sure that:

The leveling jacks are extended to the floor.

The full weight of the rack rests on the leveling jacks.

The stabilizing feet are attached to the rack, if it is a single-rack installation.

The racks are coupled in multiple-rack installations.

Only one component is extended at a time. (A rack may become unstable if more than one component is extended for any reason.)

Installation

Step 1

Place a cable management clip ❶ on a cable management bracket ❷.

Step 2 – Front Mount

Install a cage nut in the rack. Cage nuts are provided in your original rack hardware kit.

Step 3 – Front Mount

- ❶ Align the bracket with the previously installed cage nut.
- ❷ Secure the bracket with one of the M6 screws supplied in the original rack hardware kit.

Step 2 - Side Mount

- ❶ Align the bracket with the appropriate screw hole.
- ❷ Secure the bracket with one of the 5.5 mm thread-forming screws supplied with this kit.

Installation is complete.
