

Space efficient 4-way, 3U, rack-dense server for on demand enterprise applications

## IBM *@server* xSeries 360

---

### Highlights

---

- **Intel® Xeon™ Processor MP and IBM memory controller technology deliver extreme performance**
- **3U solution saves space, lowers costs and packs application-serving power for data centers**
- **IBM Enterprise X-Architecture™ technology delivers economical modular remote I/O scalability**

### Maximum power, minimum space

The IBM *@server*™ xSeries® 360 featuring the Intel Xeon Processor MP at up to 2.8GHz packs computing power in a rack-optimized design—ideal for the constrained data center. The x360 is a flexible, 4-way server that can handle diverse applications such as Microsoft® Exchange, Lotus Notes®, Microsoft SQL Server™ 2000, DB2, SAP and file-and-print.

The x360 comes with high-performance processor and memory features that help increase system performance and reduce costs, making it ideal for on demand applications. Its compact height and high-performance and high-availability features make the x360 an excellent choice for cutting costs through server consolidation.

### Simple management

The streamlined internal design of the x360 allows quicker service and increased uptime. Also, Light Path Diagnostics™ provides self-diagnosis to help reduce service time. The integrated Remote Supervisor Adapter, together with IBM Director software, deliver centralized server management and troubleshooting—even when the server is powered down.

### Protect your investment

The x360 provides low-cost I/O scalability, with up to 18 high-speed PCI-X slots made possible by Enterprise X-Architecture technology and the optional IBM RXE-100 Remote Expansion Enclosure. More I/O slots deliver redundancy for enterprise-class, high-availability solutions incorporating storage area networks, clusters, networks and virtual LANs.

<sup>1</sup> Using 2GB DIMMs.

<sup>2</sup> GB = 1,000,000,000 bytes when referring to storage capacity. Accessible capacity is less.

<sup>3</sup> For a copy of the IBM Statement of Limited Warranty, call 1 800 426-7378. Telephone support may be subject to additional charges. For onsite labor, IBM will attempt to diagnose and resolve the problem remotely before sending a technician.

## xSeries 360 at a glance

<b>Form Factor</b>	Rack/3U
<b>Processor</b>	Intel Xeon Processor MP at up to 2.8GHz
<b>Number of processors (std/max)</b>	1/4 or 2/4
<b>Cache (max)</b>	1MB or 2MB
<b>Memory (std/max)</b>	1GB/16GB <sup>1</sup> or 2GB/16GB PC1600 DDR Chipkill™
<b>Expansion Slots (total/Active PCI)</b>	6/6 Active PCI-X with optional 12 PCI-X slots via RXE-100 Remote Expansion Enclosure
<b>Disk bays (total/hot swap)</b>	3/3
<b>Maximum internal storage</b>	220.2GB <sup>2</sup> (supports 18GB, 36GB and 73GB hard disk drives)
<b>Network</b>	Integrated 10/100 Ethernet
<b>Power supply (std/max)</b>	370W 1 or 2/3 hot-swap
<b>Hot-swap components</b>	Power supply, fans, hard disk drives and PCI-X adapters
<b>RAID support</b>	Optional
<b>Systems management</b>	Alert on LAN™ 2, Automatic Server Restart, IBM Director, IBM ServerGuide™, integrated Remote Supervisor Adapter, Light Path Diagnostics (independently powered), Predictive Failure Analysis® on hard disk drives, processors, VRMs, fans and memory, Wake on LAN®
<b>Operating systems supported</b>	Microsoft® Windows® Server 2003, Caldera OpenUNIX, Linux® (Red Hat, SuSE, Caldera), Microsoft Windows® 2000 Server, Microsoft Windows 2000 Advanced Server, Microsoft Windows 2000 Advanced Server with MSCS, VMware™ ESX Server™, Novell Netware and Citrix MetaFrame
<b>Limited warranty<sup>3</sup></b>	3-year onsite limited warranty
